

daa worker-director election 2021

DES MULLALLY will work tirelessly for all of you to ensure that:

- The strategic direction for daa as set out over the next four years has our staff at the centre of everything
- All our company policies are fit for purpose, both existing and any new ones
- Processes and adequate resources are in place to deliver the policies
- There is an effective voice on the Board for all employees
- There is a secure future for daa jobs and incomes.

*For a recovery that is
a recovery for all*

POSTAL BALLOT CLOSES 15th DECEMBER 2021

An effective voice for ALL employees

This is OUR company

daa, along with the entire aviation sector, has been through the mill over the last two years and is now starting to recover. The strategic direction of daa during this recovery should while safeguarding the company must also safeguard our staff who have persevered with us through what can only be described as the most horrific time ever experienced in our company.

As the recovery continues I will, as a board member, should you decide to place your trust in me, work tirelessly to ensure that job security, terms and conditions, reward structures and personal development are kept to the forefront of decisions on the strategy of daa.

As an organisation we rightsized during the pandemic, which has now left us wrong sized for our recovery. Properly resourcing our company must be a priority for all parts of our company now.

What makes me an ideal candidate to be a Worker Director

- My knowledge of our organisation gained through my 38 years in the company, my position as branch chair for Fórsa at Irish airports, along with the knowledge I gained over the last four years of the wider aviation industry through my position on the Service and Enterprise Divisional Executive Council, whose membership is comprised of a wide range of representatives within many companies in the aviation sector.
- My previous experience on our Board for four years from 2014 to 2018, during which time we navigated our way out of the last recession, to a position of phenomenal and unprecedented growth for daa.
- My belief in my ability to effect necessary change to make daa a company that is a leader in the Semi State Sector in all ways including the wellbeing of our staff.
- Lastly, I am passionate about our company and we owe it to our present staff and those who will come behind us to have a daa that always delivers on its values.

Thank you for taking the time to read this.
