

SECURE RENTS

In response to the escalating rent crisis, **IMPACT** has partnered with our trade union colleagues in the **CWU**, **Mandate**, **SIPTU**, **UNITE** and people powered campaigning organisation **Uplift** to launch the **Secure Rents** campaign.

To illustrate how wildly out-of-control Ireland's rental costs have become over the past 5 years, the **Secure Rents** has launched a **Rent Calculator** tool which allows tenants to calculate how much rent they and their peers are likely to be paying in 2021 based on their current rental costs, their area and the increases seen in Ireland since 2011. You can use the calculator yourself online at **SecureRents.com**.

In light of the horrifying figures highlighted by the Rent Calculator, Secure Rents have also launched a **petition** calling on Minister Simon Coveney to regulate increases by **linking rents to the Consumer Price Index**, to revoke the right of landlords to **evict tenants for the purpose of sale**, and to move from current 4 year leases to **indefinite lease terms**. You can sign the petition yourself either overleaf or online via **SecureRents.com**.

DEAR SIMON COVENEY...

Minister for Housing, Planning & Local Government

We call on you to **protect tenants** from **unfair rent increases** and guarantee they can't be **unfairly evicted**.
